THE GEORGE WASHINGTON UNIVERSITY
WASHINGTON, DC
The George Washington University (GW) is a mid-sized research university located in Washington, D.C., just blocks from the White House. Our nearly 10,000 undergraduate students come from all over the globe to fine-tune their cross-cultural understanding by living and learning with students from other countries, building a network of friends, and preparing to succeed in a global setting. Our students put knowledge into action every day through research, internships, and community service.
